

MINISPOT 3.0

Sheet metal working device for vehicle dent removal

TECHNICAL INFORMATION

Mains connection 2 ph.	400 V
Mains fuse (slow-blow)	16 A
Mains frequency	50/60 HZ
Mains connection cable	3,3 kVA
Welding power	6 kVA
Welding current	Max. 3500 A
Insulation class	F
Weight	26 kg

Subject to technical and substantive alterations

ACCESSORIES

- 4 m multi-purpose welding gun
- Quick dent removal hammer
- Earth lead
- Mains connection cable
- Trolley (optional)

The MINIsPot 3.0 sheet metal working device completes the following work on car bodies rapidly and easily:

- Tacking spots
- Dent removal
- Stud welding
- Sheet metal heating for shrinking or hardening
- Welding in place of U-plates, corrugated wire, T-pins, 2-5 mm studs
